A diagram is a symbolic representation of information using visualization techniques. Diagrams have been used since ancient times on walls of caves, but became more prevalent during the Enlightenment. Sometimes, the technique uses a three-dimensional visualization which is then projected onto a two-dimensional surface. The word graph is sometimes used as a synonym for diagram.

**Diagram - Wikipedia**

The predicate of a sentence is the part that states something about the subject. The verb is the main part of the predicate, but it may be followed by modifiers, which can be in the form of single words or groups of words called clauses. For example, take the sentence: Students read books. In this sentence, the predicate contains the noun "books," which is the direct object of the verb "read."
