Barrier Island Migration - Barrier Island Ecology UNCW

To prevent erosion, people have used methods such as jetties, groins, sea walls, sandbags, and beach nourishment. A jetty is a structure built perpendicular to the shore that extends out into the ocean.

Building a Retaining Wall: 8 Dos and Don'ts | Bob Vila

A wall that leans into the soil it retains is less likely to be pushed outward by soil pressure than a plain-old vertical wall. Design and build your retaining wall to slope at a minimum rate of ...

How 65 countries have erected security walls on their...

From Israel's separation barrier (or 'apartheid wall' as it is known by the Palestinians), to the 2,500-mile barbed-wire fence India is building around Bangladesh, to the enormous sand 'berm' that...

Walls built on sand : migration, exclusion, and society in...

Walls And Immigration— Ancient And Modern

When standing today at Hadrian's Wall in northern England, everything appears indistinguishably affluent and serene on both sides. It was not nearly as calm some 1,900 years ago. In A.D. 122, the

Borders and Walls: Do Barriers Deter Unauthorized Migration?

In 2015, borders and walls seemed to burst onto the global agenda in the context of migration and halting spontaneous movement. Asylum seekers from across South America, Africa, and the Middle East have t

Shoreline Structures - Beachapedia

Seawalls are structures built of concrete, wood, steel or boulders that run parallel to the beach at the land/water interface. They are designed to protect shorelines or coastal properties.
